troops of the 12th Gds Tank Div. The 413th Indep Pon Bridge
Bn, which left Neubrandenburg on 10 and 11 July 1951
apparently for Jerichow, may have returned to Neurumpin
in early August 1961

arrival of an engineer unit in the

Fridericus Kaserne on 4 August 1951.

(2)

the train which left
southwestwards carried several components of the 12th Gds
Tank Div.

(3) Amphibious vehicles of the unidentified (Gds ?) engineer
regiment of the GOFG in Bernburg.

(4) The train carried a component of the unidentified AT
artillery brigade of the Second Gds Mecz Army and came
from Jueterbog. It was probably going to Oranienburg, and
was also reported from Jueterbog. It was one
of the trains on which components of the brigade returned
to their home station after short training courses at
Jueterbog after mid-July 1951.
